July 2024

National Same Day / Next Day availability of Steel Tube to BSEN 10255/10217-2 GH - Hot Formed

Smith Brothers Stores can offer fully compliant steel tubes that meet the requirements of the Pressure Equipment Directive (PED) 2014/68 and, in turn, meet UK/EU legislation.

All our branches nationwide, located throughout the UK, can offer the full-size range of tubes 15mm through 150mm, in Red and Galvanised Steel, from stock, with ongoing weekly replenishment from our approved tube manufacturers.

Our branches have access to technical support documents should they be required. If you need to ensure your project or contract requires PED-compliant steel tube, then you can be assured SBS will deliver.

For all the latest guidance, please refer to the [BMTFA website \(bmtfa.org\)](http://bmtfa.org), which contains their latest tube statement and its suitability, and to which SBS are supporting members.
